

Vicki Henke Microblading and Permanent Cosmetic

Before the Treatment:

- ❖ Put half the numbing cream on 30 minutes BEFORE appointment
- ❖ Do not take Aspirin, Fish oil, Niacin, Vitamin E and/or Ibuprofen 72 hours prior to your procedure unless medically necessary
- ❖ If you get your eyebrows waxed, threaded, or tinted PLEASE have this done at least 72 hours before your procedure. It is recommended to wait 14 days to have them waxed or threaded and 30 days for tinting after procedure
- ❖ Do not have Botox done 1 week before procedure

After the Treatment:

- ❖ Do not get your eyebrows directly wet; water, ocean, pool, sweating or any other liquid for 10 days after treatment. Even a small drop which seems unimportant may appear expand the /possible infection/excessive scabbing may appear and you may ruin the results.
- ❖ Blot the area every 10 minutes for 1-2 hours will help remove any excesses lymph blood and pigment that may appear after the procedure
- ❖ Apply a very small amount of the ointment I give you. Make sure your eyebrows are not greasy but just moisten a little, so you won't see any residue. *3 times a day for 12 days*
- ❖ Do not pick at brows
- ❖ Please do not use any other ointment or cream with vitamins or antibiotic except the ones provided or recommended to you in order to prevent infections or allergic reaction during the healing process
- ❖ Do not use Retinols AHA's exfoliation treatment, chemicals peels microdermabrasion or any other strong treatment for 6-8 weeks after your procedure
- ❖ Use fresh pillow case

Eyeliner after treatment:

- ❖ Ice at least 1 hour after procedure
- ❖ Immediately after icing put Bacitracin on with a Q-tip that was provided to you by me.
- ❖ When the Bacitracin runs out you will need Vaseline

Vicki Henke Microblading and Permanent Cosmetic

- ❖ It is very important that you avoid all other makeup on eyes for 1 week, this will help eliminate possible infection and irritation
- ❖ Sleep elevated the night of the procedure which will help reduce swelling the next morning
- ❖ Ice the next morning for an hour, this will be the last time you need to ice
- ❖ Do not use Latisse, Rivitabrow or lash extension for 2 week after procedure

Lip after Treatment:

- ❖ Lips will ooze off and on for 1-2 days after the treatment. Blot them and keep moist with Bacitracin
- ❖ Ice, ice and ice and keep your lips moist
- ❖ Sleep elevated the night of the procedure which will help reduce swelling the next morning
- ❖ Ice the next morning for an hour, this will be the last time icing
- ❖ Keep moist for 3 weeks. Once you run out of bacitracin you will use Vaseline
- ❖ Lips will be dark at first; they will peel and look light. The color will come back in 3-6 weeks

MICROBLADING/MANUAL PERMANENT MAKEUP
TREATMENT BEFORE & AFTER CARE INSTRUCTIONS

What to expect in the healing process for all brow enhancement/permanent makeup procedures.

- ❖ WHILE YOUR SKIN HEALS BE PREPARED FOR THE COLOR INTENSITY OF YOUR PROCEDURE TO BE SIGNIFICANTLY LARGER, SHARPER, BRIGHTER, OR DARKER than what is expected for the final outcome. This is normal and an expected result of the application and healing process. The healing process will take a number of days to complete, depending on how quickly the outer layer of your skin exfoliates and new skin regrows to take its place. _____ Initial
- ❖ Color will appear darker and bolder after the procedure. Your color will oxidize and darken over the first few days. The color CAN AND WILL fade/soften anywhere from 10% to 50% or more. _____ Initial
- ❖ Some residual swelling is normal for ALL procedures. Swelling and healing time is individualized. It can be minimal on clients. Every client is different. Blanching (whiteness around the treatment area) and redness is to be expected and can vary from client to client. It can last a few hours to a few days. _____ Initial
- ❖ The area may appear uneven, dry, itchy, tender, red & irritated. This is all 100% normal. DO NOT PICK! These symptoms will dissipate each day and vary on an individual basis. _____ Initial
- ❖ Picking can lift color and pigment from the treated area resulting in unevenness and blank spots. Let the brows flake off naturally. _____ Initial
- ❖ Your brows may not exfoliate evenly. Please do not pick at the scabs. During the exfoliation process your color may look weak, orangey, pinkish, or grey. This will not be your final result. It takes a full 6 weeks or more for your true color to surface. Please be patient and wait until you are fully healed before you critique your eyebrows. Any refinements can be addressed at a follow up visit. _____ Initial
- ❖ Healing is specific to each client. It is important to realize that you will need a color boost every 2 years to maintain its fresh natural appearance. Fading WILL happen after each procedure. We do not have control over your body's healing process. _____ Initial
- ❖ Everyone's genetics, physiological makeup, and lifestyle will affect the treatment in various unique ways. You may need still to powder and/or pencil your eyebrows even after the healed results. This is an enhancement to your natural brows.....not a permanent one. _____ Initial

VICKI HENKE MICROBLADING PERMANENT COSMETICS

FARMINGTON NM/DURANGO CO/ALBUQUERQUE NM

- ❖ If you are out in the sun a lot, have oily skin, use anti-aging creams, Retin-A/Retinol products, acidic cleansers, natural elements, regular chemical peels, or exercise frequently, your permanent makeup WILL fade prematurely. Smoking WILL cause the pigment to fade prematurely and anesthetics will not last as long. The better you take care of the treated area and follow the provided aftercare, the longer it will last. _____ Initial
- ❖ Remember that no two sides of the face are the same or perfectly symmetrical. While trying to obtain perfect symmetry is our goal, note that nothing is PERFECT. _____ Initial
- ❖ When you leave the studio your shaded eyebrows and/or your hair strokes are intact. Remember your technician will do their best to help you heal properly; but lifestyle, genetics, age, and certain environmental factors can/will contribute to the retention of your eyebrows. _____ Initial
- ❖ It is very common to have areas fade more so than others. This is part of the healing process and it may be treated at the recommended touch up appointment. Previously done eyebrows make take 1-3 treatments to achieve the desired result. Scar tissue in the brow area of the eyebrows done multiple times WILL require additional procedures and fees will apply. _____ Initial
- ❖ Permanent Makeup is an art, NOT a science. All clients' results will vary. The use of makeup such as a brown pencil or powder may still be needed. This is not a "no maintenance" treatment but a "low maintenance" one. _____ Initial
- ❖ If you decide to change your mind and switch to have a powder-filled/ombre/shaded eyebrow procedure after your first hair stroke/microblading procedure and do not want to do hair strokes for your follow up appointment, you will be charged accordingly for the change of service. _____ Initial
- ❖ Follow-up visits should be done within 6-8 weeks after your initial treatment. Any additional touch-ups within 4-12 months that require a color boost may acquire additional fees. WE DO NOT DO FREE TOUCH-UPS after your FOLLOW-UP visit but will price accordingly to your individual needs. _____ Initial
- ❖ Follow-Up Visit Fees (Subject to Change)

Within 3 months	\$75-150.00
4 months - 12 months	\$175-425.00
13 months +	Full Price

CONTRACTUAL OBLIGATIONS

I agree on photo taking and using the photos for advertising and training purposes. I understand that the taking of before and after photographs of the said procedure is a condition of such procedure.

Yes _____ NO _____

The following risks are specifically explained to the client:

- ❖ I understand that if I have any skin treatments, laser hair removal, plastic surgery or other skin altering procedures, it may result in adverse changes to my permanent cosmetics. I acknowledge some of these potential adverse changes may not be correctable. _____ Initial
- ❖ During the procedure despite the staff expertise and all the precautionary measures, injury is possible. Despite the application of the most advanced and the top quality pigments, allergic reaction is possible but rare. The client is informed about this and he/she assumes liability. _____ Initial
- ❖ Note that tattoo inks, dyes, and pigments have not been approved by the Federal Food and Drug Administration and that the health consequences of using these products are unknown. _____ Initial
- ❖ During and after the procedure temporary swelling, redness and/or itching may occur. _____ Initial
- ❖ Depending on the skin structure after the first treatment, small scabs with a loss of drawn hairs may occur and color intensity may change. _____ Initial
- ❖ In the first seven (7) days, eyebrows are up to 40% darker and 10-15% thicker. Color, i.e., color reflection depends on the natural skin pigment. _____ Initial
- ❖ The pigment is absorbed differently due to differences in the skin quality, thus there is no warranty for the treatment success. _____ Initial
- ❖ The shape is determined according to the face proportions. _____ Initial
- ❖ Depending on the skin structure, it should be noted that change in the color intensity is possible and that one or more additional treatments will be required. _____ Initial
- ❖ The minimum or maximum duration of microblading or permanent makeup procedures cannot be determined with certainty nor can the warranty be given on performed treatment. _____ Initial
- ❖ Any touch-up fees may apply for future appointments if touch-ups are desired. If most of the color has faded then this will not be considered a touch-up and all fees for a new service may apply. Touch-ups are usually performed after 6-8 weeks. For oily skin it may be necessary to perform more corrections. _____ Initial
- ❖ Permanent makeup always leads to the skin injury. Therefore, it is important to carefully and gently nurture your skin after the treatment to allow healing without complications. Inadequate care in healing phase of the skin can lead to poor results. VICKI HENKE cannot be liable for it. _____ Initial

I ACKNOWLEDGE THAT NO GUARANTEES HAVE BEEN MADE TO ME CONCERNING THE RESULTS OF THIS PROCEDURE. _____ Initial

I CONFIRM THAT I HAVE READ AND UNDERSTOOD THE ABOVE MENTIONED INFORMATION. _____ Initial

I RECEIVED A CLEAR AND UNDERSTANDABLE RESPONSE TO ALL MY QUESTIONS. _____ Initial

THE TREATMENT PROCEDURE AND POST-TREATMENT CARE WAS EXPLAINED TO ME IN DETAIL AND I AGREE WITH IT. _____ Initial

AFTER CARE INSTRUCTIONS WERE GIVEN TO ME TO TAKE HOME. _____ Initial

I certify that I have read and initialed the above paragraphs and have had explained to my understanding this consent and the procedure process. I accept full responsibility for the decision to have this cosmetic tattoo work done. I have been informed of the nature, risks, and possible complications and consequences of permanent skin pigmentation. I understand the permanent skin pigmentation procedure carries with it known and unknown complications and consequences associated with this type of cosmetic procedure, including but not limited to: infection, allergic reaction, scarring, inconsistent color, and spreading, fading or fading of pigments. I understand the actual color of the pigment may be modified slightly, due to the tone and color of my skin. I fully understand this is a tattoo process and therefore not an exact science, but an art. I request the microblading/permanent makeup procedure and accept the permanence of the procedure as well as the possible complications and consequences of the said procedure. I understand that while this is sometimes referred to as semi-permanent in nature, due to each individual's reaction pigment, the length of time pigment is present cannot be guaranteed. In some cases, pigment will be permanent.
